

1-Hour Rated Fire Safes

Adesco offers 1 hour fire rated safes at an economical price. These B-rated safes are excellent for home and small business use. Perfect for document/record storage.

Fire Testing Standards
K.I.S. (Korea Industrial Standards) rated by the KSG-4500 fire resistance tests. Papers and valuable documents will remain protected in accordance with the rating standards against fire, explosion and drop impact during fires.

Fire- Safe is tested 1 hour in a furnace with temperatures rising to 1695° F.

Explosion- Heated in furnace to 1625° F in 10 minutes, continued at temperature for 30 more minutes.

Fire Impact- Subjected to standard fire exposure for 30 minutes, dropped 13 feet, returned to furnace upside down, reheated 1 hour.

Lifetime Replacement Guarantee!

See back cover for details
